All you need to do is drag and drop audio files to the appropriate list and press the "Convert" button. The program will do the rest., there is no single best way of making money from YouTube. But to give you an idea of how much money you can make, you would earn more than £20,000 per year if you grew a channel to 100,000 views per day (each viewer would contribute £1.80). And you can almost guarantee yourself a second-rate job in a bank if you can reach 1.5 million views per day! (But before you get any excited, many viewers will be watching your videos when you are asleep – which would lead to very few viewers per day!).” This is the most important point and it is often overlooked by people who want to make some extra money and earn the best amount of money possible online. People often think that the more views they get, the more money they make, but that is not the case at all. The important part to remember is that if you get a higher quality video, a higher quality video will not take more views than a lower quality video. This is the main reason why you should be investing your time and money in producing high quality videos as it will ultimately result in higher revenue. However, if you’re going to do videos, you can certainly make money with them. You might want to make money with them first, but if you do them because they bring you the most joy, you’ll eventually earn money. Being a moody animator can be a lot of fun, but I do have to admit that I’ve earned the least amount
